

Monthly California Hub and Spoke System Data Reporting Form

Data below is for the month of: MM / YYYY

HUB Hub name*:

	Total Number
A. Patients** INITIATING methadone for OUD during the month at the hub.	
B. Patients** INITIATING buprenorphine (including Suboxone, Subutex, Probuphine) for OUD during the month at the hub.	
C. Patients** INITIATING XR-naltrexone (“Vivitrol”) for OUD during the month at the hub.	
D. Of patients initiating any of the above medications at the hub (A + C + B above), number who also received counseling or other OUD recovery services*** from either the spoke or the hub.	
E. Active OUD patients (census) as of the last day of the month at the hub.	
F. OUD patients who initiated treatment in <input type="text"/> (6 months prior to reporting month) remaining in treatment uninterrupted as of the last day of <input type="text"/> (current reporting month), at the hub. For example, if reporting month is 10/2017, indicate as follows: <i>“OUD patients who initiated treatment in 04/2017 remaining in treatment as of the last day of 10/2017.”</i>	

G. Below, for each spoke, list the number of patients REFERRED TO the hub who initiated methadone, buprenorphine, or XR-naltrexone (if over 12 spokes, please attach extra page with remaining spokes):

	Spoke 1	Spoke 2	Spoke 3	Spoke 4	Spoke 5	Spoke 6
Patients Referred to Hub Who Initiated MAT						
	Spoke 7	Spoke 8	Spoke 9	Spoke 10	Spoke 11	Spoke 12

If your organization has more than one grant, please submit a separate data reporting form packet for each CA H&SS.

* Choose a descriptive name (e.g. organization, location). Please use the same hub and spoke names consistently over the duration project. Patients served at Medication Units (if any) should be included in Hub counts.

** Please exclude patients whose MAT initiation and other services are fully covered under the cost of another grant, contract, or external funding source (i.e., those who do not interact with the Hub and Spoke System). Do not exclude patients who interact with the Hub and Spoke System, but whose service costs are covered by Medi-Cal, private insurance, or self-pay. Please also exclude courtesy dosing.

*** Recovery support services help people enter into and navigate systems of care, remove barriers to recovery, stay engaged in the recovery process, and live full lives in communities of their choice. Some examples include: supported employment, education, and housing; assertive community treatment; illness management; and peer-operated services. For more see: <https://www.samhsa.gov/recovery>
