

Data below is for the month of:  MM / YYYY

**SPOKE** Spoke name\*:  Spoke number:

To avoid double counting, please do not count patients that initiated their medications at the hub.

	Total Number
<b>A.</b> Patients** INITIATING buprenorphine (including Suboxone, Subutex, Probuphine) for OUD during the month at the spoke.	
<b>B.</b> Patients** INITIATING XR-naltrexone (“Vivitrol”) for OUD during the month at the spoke.	
<b>C.</b> Total patients REFERRED TO the hub.	
<b>D.</b> Total patients REFERRED FROM the hub.	
<b>E.</b> Patients REFERRED FROM the hub who initiated buprenorphine or XR-naltrexone at the spoke.	
<b>F.</b> Of patients initiating buprenorphine or XR-naltrexone at the spoke (A + B above), number who also received counseling or other OUD recovery services*** from either the spoke or the hub.	
<b>G.</b> Active OUD patients (census) as of the last day of the month at the spoke.	
<b>H.</b> OUD patients who initiated treatment in <input type="text"/> (6 months prior to reporting month) remaining in treatment uninterrupted as of the last day of <input type="text"/> (current reporting month), at the spoke.  For example, if reporting month is 10/2017, indicate as follows: <i>OAD patients who initiated treatment in 04/2017 remaining in treatment as of the last day of 10/2017.</i>	
<b>I.</b> Total providers with DATA 2000 waiver at the spoke.	

**J.** For each waived prescriber at the spoke, list the number of active OUD patients (*if over 12 prescribers, please attach extra page with remaining providers*):

	Prescriber 1	Prescriber 2	Prescriber 3	Prescriber 4	Prescriber 5	Prescriber 6
<b>Active Patients</b>						
	Prescriber 7	Prescriber 8	Prescriber 9	Prescriber 10	Prescriber 11	Prescriber 12

PLEASE SUBMIT ONE PAGE PER SPOKE.

\* Choose a descriptive name (e.g. organization, location). Please use the same hub and spoke names consistently over the duration project. Patients served at Medication Units (if any) should be included in Hub counts.

\*\* Please exclude patients whose MAT initiation and other services are fully covered under the cost of another grant, contract, or external funding source (i.e., those who do not interact with the Hub and Spoke System in any way). Do not exclude patients who interact with the Hub and Spoke System, but whose service costs are covered by Medi-Cal, private insurance, or self-pay. Please also exclude courtesy dosing.

\*\*\* Recovery support services help people enter into and navigate systems of care, remove barriers to recovery, stay engaged in the recovery process, and live full lives in communities of their choice. Some examples include: supported employment, education, and housing; assertive community treatment; illness management; and peer-operated services. For more see: <https://www.samhsa.gov/recovery>
